

U N	G o a l	5. Achieve gender equality and empower all women and girls
	T a r g e t	5.4 Recognize and value unpaid care and domestic work through the provision of public services, infrastructure and social protection policies and the promotion of shared responsibility within the household and the family as nationally appropriate
	I n d i c a t o r	5.4.1 Proportion of time spent on unpaid domestic and care work, by sex, age and location

I. National indicator

<Type 1>

Indicator	Proportion of time spent on unpaid domestic and care work
Definition	The proportion of time spent in a day on unpaid domestic and care work by men and women. <i>Unpaid domestic and care work</i> refers to activities related to the provision of services for own final use by household members, or by family members living in other households. <i>Unpaid domestic and care work</i> refers to activities including food preparation, clothes care, cleaning, home care, buying household goods, home management, and other house work, listed in the major categories No. 4(Home management) and No. 5(Caring for household and family members) among the behavioral classifications of <i>Time Use Survey</i> . Domestic work and care work are collectively referred to as house work.
Calculation method	(Minutes spent on domestic work+minutes spent on family and household member care) / 24 *100
Unit	Percent (%)

II. National indicator's source

Data sources	<ul style="list-style-type: none"> ■ Source: <i>Time Use Survey</i> ■ Collection method: Respondents were asked to self-report on the time-diary what they primarily did, where they have been or in what transportation, and activities they have done with others in the past two days in 10-minute intervals. Interviewers visited to interview the respondents for household and personal questions
Calendar	<ul style="list-style-type: none"> ■ Frequency: 5 years(three-round surveys on July 1, September 1, and November 1) ■ Data release: July in the following year of the reference year
