| U N | G o a l | 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all |
| | T a r g e t | 8.2 Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors |
| | I n d i c a t o r | 8.2.1 Annual growth rate of real GDP per employed person |

I. National indicator

<Type 1>

| | |
|--------------------|---|
| Indicator | Growth rate of real GDP |
| Definition | Annual growth rate of real gross domestic product (GDP) is calculated as the percentage change in the real GDP between two consecutive years. This indicator highlights increases in added values from the previous year, hence an important indicator to measure the performance of a country's economic performance |
| Calculation method | $\frac{G(t+1)-G(t)}{G(t)} \times 100$ * G: Real GDP |
| Unit | Percent (%) |

II. National indicator's source

| | |
|------------------------------|---|
| Data sources | <ul style="list-style-type: none"> ■ Source: <i>National Accounts (National Income Statistics)</i> ■ Collection method: Derived statistics that give a comprehensive view to the movement of the economy; total outputs and interim inputs are calculated based on 170 basic types of statistics(300 types including simple data) and added values are calculated by deducing interim inputs from total outputs |
| Calendar | <ul style="list-style-type: none"> ■ Frequency: Annually ■ Data release: Provisional(Apr-May in the following year), confirmed(Apr-May in the year after the following year) |
| Organizations | National Income Team(Tel. 02-759-4372), Bank of Korea |
| Related International Agency | NAQ(National Accounts Questionnaire) |

III. Comparison with UN SDG indicator

| | | | | | |
|-----------------------|--|--------------|-----------|--------------|-----------|
| ① Indicator | | ② Definition | | ③ Data value | |
| Same | Different | Same | Different | Same | Different |
| Note | <ul style="list-style-type: none"> ■ The data in the UN global database represent the growth rate of real GDP per employed person. There are no statistical data precisely corresponding thereto, but the indicator may be derived from data on real GDP and the number of employed persons in the <i>Economically Active Population Survey</i> | | | | |
