I. Global indicator

〈Type 4〉

Indicator	Proportion of small-scale industries with a loan or line of credit
Definition	<p>The number of "small-scale industries" with an active line of credit or a loan from a financial institution in percentage to the total number of such enterprises.</p> <p>Small-scale industries play an important role in the economy. However, it has quite limited access to financial services, especially in developing countries. In order to improve the skill of workers and technology for production, small-scale industrial enterprises require financial support in the form of preferential loan, credit etc. This indicator shows how widely financial institutions are serving the small-scale industries, reflecting the message to promote the access of small-scale industries to financial services.</p>
