

U N	Goal	17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development
	Target	17.1 Strengthen domestic resource mobilization, including through international support to developing countries, to improve domestic capacity for tax and other revenue collection
	Indicator	17.1.1 Total government revenue as a proportion of GDP, by source

I. Global indicator

<Type 2>

Indicator	Total government revenue as a proportion of GDP, by source
Definition	Total revenue is a central government's fiscal indicator on the revenue side. In the 2014 IMF Government Finance Statistics Manual, total revenue is divided into taxes, social contributions, grants, and other revenue.

II. Data description

[Data] Total government revenue as a proportion of GDP, by source	
Calculation method	Statistics are produced using basic data for Government Finance Statistics (GFS) reports managed by the IMF Statistics Department. The GFS revenue data are collected using the standard annual data questionnaire.
Unit	Percent (%)
Data sources	National fiscal data from statistical offices.
Calendar	<ul style="list-style-type: none"> ■ Time series: 2000-2018(Data for Korea included in 2000-2017) ■ Data release: Annually
Organizations	IMF(International Monetary Fund)
